

## Stakeholder Management

### ENGAGING ALL STAKEHOLDERS

You need to involve many stakeholder and citizen groups. To reach them and start the dialogue, you several digital and face to face communication channels. We will support you in that and keep all together in ONE process, in an affordable way.

### BUILDING UNDERSTANDING AND TRUST

Good projects are built on deep understanding and a common vision. Shared by the project initiators, stakeholders and citizens. Visualisation and collaboration on shared, trusted data sources like maps are great to build common understanding and trust. We provide you very effective digital and physical visualisation and participation tools.

### GUIDING A TRANSPARENT PARTICIPATION PROCESS

Good processes involve stakeholders often, in predictable, transparent ways, are open for opinions & emotions, take care of handling conflicts and create support. We bring the expertise to design and guide the process, including all stakeholder groups.

### CREATING THE BEST SOLUTION

To find the solution that is best in meeting all needs, fitting all constraints, getting the blessing of stakeholder groups, the creative process goes through several iterations. We bring effective tools to interact and co-create with stakeholders in all phases.
